**SAVED IN THE
NICK OF TIME**

Members of the Civil Defence Department saving a herd of goats which were trapped on a sandbar at Pantai Cherok Paloh in Kuantan. An officer of the department said it was the first time its members had saved animals from drowning in the sea. The animals had wandered onto the sandbar during low tide and could not leave the area when the tide came in about 9am. When they could not be rescued by villagers, the department's help was sought.
