

(Empowered Under Section 8 of Animal Rules 1962)

**REGULATIONS FOR THE IMPORTATION
OF SEMEN INTO PENINSULAR MALAYSIA**

A Animal Species : Cattle
B Product : Semen (Frozen or Chilled)
C Country of Export : France
D Purpose : Artificial Insemination

E Regulations for Importation:

1. a certificate signed by a Government Veterinary Authority of the country of origin certifying that the semen is derived from an artificial insemination centre which is under the supervision of a veterinary surgeon and is licensed by the Government of the exporting country and that the country wherein this insemination centre is located has been free from foot and mouth disease, rinderpest, and bluetongue six (6) months immediately preceding the collection of semen and until the time of export.
2. a declaration by The Veterinary Surgeon in charge at the artificial insemination centre certifying that;
 - a. the semen in the consignment is derived from animals which had been kept in the artificial insemination centre for at least six (6) months immediately prior to the date of collection;
 - b. The A.I. centre is free of any clinical signs of enzootic bovine leukosis for the last 12 months prior to the collection of semen.
 - c. The donor bull or bulls have been tested and found free for the following diseases :
 - i. tuberculosis by tuberculin test with negative results in the preceding 6 months prior to collection
 - ii. Brucellosis by serum agglutination test with negative result within 30 days prior to the collection of semen
 - iii. Leptospirosis, vibriosis and trichomoniasis and infectious bovine rhinotracheitis (IBR) at the time of collection.
 - iv. the semen of the donor bull contains no brucella agglutinin.
3. An import licence issued by the Director General State Veterinary Director concerned permitting the import of such semen into the States/State of Peninsular Malaysia.
