

(Empowered Under Section 8 of Animal Rules, 1962)

**REGULATIONS FOR THE IMPORTATION OF SHEEP OR GOATS
FROM THE REPUBLIC OF INDONESIA INTO MALAYSIA**

- A. Animal : Sheep and Goats
- B. Country of Export : Republic of Indonesia
- C. Purpose : Breeding
- D. Regulations for importation :-

1. Import licence

The consignment of animals shall be accompanied by a valid import Licence issued by the Director General of Veterinary Services, Malaysia or the State Director concerned permitting the importation of such animals into Malaysia.

2. Description of animal

The consignment of animals shall be accompanied by a certificate containing a full description or identification of the animals.

3. Veterinary Certification

The consignment of animals shall be accompanied by a veterinary health certificate issued by a competent veterinary officer of the Government of Republic of Indonesia certifying that :-

- 3.1 the animals have been examined and found to be clinically healthy and free from any infectious or contagious disease at the time of export;
- 3.2 the animals had been in the Republic of Indonesia for a period of not less than six (6) months immediately prior to export;
- 3.3 no case of rinderpest and foot and mouth diseases had occurred in the part, state or province of origin of the Republic of Indonesia during a period of not less than twelve (12) months immediately preceding export.
- 3.4 the animals came from an area in which animal diseases including brucellosis, Johne's disease, tuberculosis, contagious caprine pleuropneumonia and toxoplasmosis were under control.
- 3.5 the animals came from farm(s) certified free of brucellosis, leptospirosis, melioidosis, tuberculosis and Johne's disease for a period of not less than six (6) months immediately preceding export.
- 3.6 the animals were tested by complement fixation test (CFT) for brucella abortus, brucella ovis, brucella malentesis and Johne's disease; by serum agglutination test (SAT) for melioidosis and by agar-gel precipitation test (AGPT) for caseous lymphadenitis (CLA), not more than one (1) month prior to export, with negative results.
- 3.7 the animals were treated with single dose of intra-muscular injection of dihydrostreptomycin at dosage of 20 mg/kg liveweight against leptospirosis; a broad-spectrum anthelmintic and treated against all ectoparasites within seven (7) days prior to export.
- 3.8 the animals came from farm(s) certified free of camphylobacteriosis for a period of not less than 3 years prior to export.
- 3.9 the animals were vaccinated against anthrax, black leg and tetanus.

4. Declaration by Master/Captain of the Ship/Aircraft

The consignment of animals shall be accompanied by a certificate from the master/captain of the ship or aircraft in which the animals were carried stating that:-

- 4.1 after embarkation of the animals the ship or aircraft did not call at any intermediate port or airport other than in Singapore;
- 4.2 no ruminants or swine other than those specified above were permitted aboard the aircraft or carried in the ship during the time the animals to which the declaration refers were on board such ship or aircraft;
- 4.3 no fodder or bedding was taken on board the ship or aircraft from places other than the port or airport of embarkation.

5. Transportation

The consignment of animals shall be carried by ship or aircraft direct to the prescribed landing place or any other port or airport as directed by the Director General of Veterinary Services, Malaysia or the State Director concerned.

6. Quarantine in Malaysia

Upon arrival in Malaysia, the animals shall be quarantined for a period of not less than 10 clear days at the approved quarantine station/holding yard. The first day being counted after the last animal has been admitted; all the animals shall be released on the 11th day.
