QUESTIONNAIRE

INFORMATION ON ANIMAL AND VETERINARY PUBLIC HEALTH SERVICES
(To be filled by the Veterinary / Regulatory Authority of Exporting Country)

B SHEEP/GOAT

Name of country:

Species intended to export:

Commodity intended to export:

Commodity		√ (where applicable)	List of Products	Purpose
Live animal	:			
Meat	:			
Dairy	:			

PART 1 - GENERAL

PART I – GENERAL

1 Competent Authority

- 1.1 Please describe in details the administrative organisation of Competent Authority responsible for animal health and public health. Provide organisational chart
- 1.2 Please provide addresses, email, contact person, locations (maps) of the Competent Authority

- 1.3 Organisation of veterinary services (short organogram)
- 1.4 Please list the ports and quarantine areas and provide the maps. Describe the activities at the ports

2 Veterinary structures

- 2.1 Please provide total number of Veterinarian
- 2.2 Number of veterinarians employed in Animal Health Services
- 2.3 Number of Veterinarians employed in Head Office of Animal Health Services
- 2.4 Number of veterinarians employed in district Animal Health Services (list by district the number of official veterinarians dealing, full time or part time with sheep/goat (Dairy/Meat).
- 2.5 Number of dairy/meat herds per official veterinarian
- 2.6 Number of veterinarians employed in district Animal Health Services (list by district the number of official veterinarians dealing, full time or part time with sheep/goat (Dairy/Meat).
- 2.7 Number of para-veterinary technicians employed by the veterinary services.
- 2.8 What is the ratio of Veterinarians with animals?
- 2.9 Number of Private Veterinarian
- 2.10 Number of staff in official Veterinary laboratory
- 2.11 Please provide number of veterinary school in the country
- 2.12 Para-veterinary education: Indicate the number of universities and schools where study can be done their programmes and the average of annual graduates (total for the country).

3 Legislation

- 3.1 Please provide legislation on animal health
- 3.2 Provide legislation on public health

- 3.3 Provide legislation on enforcements
 - 3.4 Describe import and export policy
 - 3.5 Provide legislation on animal welfare
 - 3.6 List the laws governing sheep/goat/buffaloes-meat inspection with a short content thereof
- 4 Diagnostic works
- 4.1 Number of official veterinary laboratories.
 - 4.2 Please indicate, for each of these laboratories, their capabilities for disease diagnosis.
- 5 Sheep/Goat Industry
- 5.1 Explain the general structure of the industry.
 - 5.2 How do the farmers acquire the veterinary health services?
 - 5.3 Does the industry have its own animal health programmes (guidance, sanitary monitoring, vaccinations etc)?
 - 5.4 List Meat/Dairy sheep/goat population by district and general total and mention the approximate number of each category: (breeding, production).
 - 5.5 Indicate the number of dairy/meat sheep/goat holdings, by state and district.

PART II - ANIMAL HEALTH

- 6 **Notifiable disease**
- 6.1 Indicate the list of notifiable sheep/goat diseases and describe briefly the notification procedure
 - 6.2 Which sheep/goat diseases are notified to O.I.E, and eventually, to other countries? Indicate for these diseases the notification frequency (immediate, monthly, annually)

7 Disease and vaccination situation

7.1 FMD

7.1.1 Number of outbreaks for each of the last 3 years. Number of animals vaccinated during each of the last 3 years

7.1.2 Indicate by district the date of last outbreak and, eventually the date of last vaccination

7.1.3 In the case FMD occurs (or should occur), is a stamping-out policy always applicable?

If no, describe the way of dealing with (eventual) outbreaks

7.1.4 Describe briefly the other measures in the case of outbreaks of FMD (standstill, radius of surveillance zones, epidemiological inquiry etc)

7.1.5 Which testing procedure and criteria are used to confirm a diagnosis of FMD?

7.1.6 Is vaccination against FMD allowed or regulated

If yes, list the type of vaccines used (inactivated or attenuated, strain etc.) and the principal rules governing the distribution and use of these vaccines

7.1.7 List the districts, which have to be considered as free from FMD

7.2 Peste des Petite Ruminants

7.2.1 Number of outbreaks for each of the last 3 years - Number of animals vaccinated during each of the last 3 years

7.2.2 Indicate by district the date of the last outbreak and eventually, the last vaccination

**7.2.3 In the case Peste des Petite Ruminants occurs (or should occur), is a stamping-out policy always applicable
If not, describe the way of dealing with (eventual) outbreaks**

7.2.4 Describe briefly the other measures in the case of outbreaks of Peste des Petite Ruminants (standstill, radius or surveillance zones, epidemiological inquiry etc.)

7.2.5 Which testing procedure and criteria are used to confirm a

diagnosis of Peste des Petite Ruminants? (Definition of Peste des Petite Ruminants in legislation)

7.2.6 Is vaccination against Peste des Petite Ruminants allowed or compulsory?

If so, indicate the type of vaccines used (inactive or not, strain etc.) and the principal rules governing the distribution and use of vaccines for Peste des Petite Ruminants control

7.2.7 Is a monitoring for Peste des Petite Ruminants applied? If so, describe the headlines of this programme

7.2.8 List the districts, which have to be considered as free from Peste des Petite Ruminants

7.3 Other Sheep/Goat Diseases

Describe disease situation (number or outbreaks for the last 3 years), monitoring, vaccination, controlling or eradication programmes (official and non-official ones provided the latter are rather generally applied) for the following diseases (information as far as available by district and by species when applicable): indicate where possible the number of animals under the programme:

7.3.1 Bluetongue

7.3.2 Brucellosis

7.3.3 Anthrax

7.3.4 Tuberculosis

7.3.5 Johne's Disease

7.3.6 Salmonellosis

7.3.7 Contagious bovine pleuropneumonia

7.3.8 Sheep pox and goat pox

7.3.9 Nairobi Sheep Disease

7.3.10 Scrapie

7.4 Disease situation in contiguous countries

Indicate if (and so in which) FMD or Peste des Petite Ruminants disease occur in contiguous countries

8 Animal health legislation

8.1 List of the official names of laws and regulations governing the prevention, control and eradication of animal diseases

8.2 Do laws exist which require the reporting of cases or suspect cases of certain animal diseases to veterinary authorities? (In general)

If "yes", please list the diseases, which must be reported

8.3 Do laws exist which permit veterinary authorities to:

(a) quarantine or isolate animals and/or premises on a suspicion of those diseases listed previously?

(b) establish control zones, cordons sanitaires or quarantine zones around premises containing animals infected with these disease and control movements into and out of such zones or areas?

(c) destroy and dispose of the carcass of animals infected with this disease?

(d) destroy and dispose of the carcasses of animals infected with these diseases?

(e) compensate owner for property destroyed by the above activities?

9 Importation Policy

9.1 Describe briefly the rules governing importation of live sheep/goat, with reference to legal documents (eventual quarantine, animal health guarantees asked for, model of certificates, testing, etc)

9.2 Are imports allowed from countries or regions, which are not free from FMD? If so, are there any additional guarantees required for such imports?

PART III PUBLIC HEALTH

10 Veterinary Public Health Services

10.1 Describe the competent authority which is in charge of veterinary public health.

10.2 Describe the monitoring performed by the competent authority in the establishments interested to export to Malaysia.

10.3 Describe the procedure and control for the issuance of health certification for exporting establishments.

11 Veterinary Public Health laboratories

Give the same information on the veterinary laboratories in the field of public health as asked for in point 3. If the same laboratory (ies) is(are) dealing both with animal and public health, indicate its (their) qualitative and quantitative performance with regard to analyses of animal products and mention, by laboratory, the competent staff

12 Residue plan

Describe briefly residue control program and indicate results for the last three years.

PART IV SLAUGHTERING/PROCESSING

13 Please provide details of sheep/goat slaughterhouses and cutting plants (Name, establishment number, addresses, activities and etc), which could be considered for export to Malaysia.

14 Describe the role of Competent Authority in regulating and monitoring the operation, meat inspection and surveillance in Slaughterhouses and cutting plants

15 Describe the tasks and qualifications of the meat inspectors

16 Describe the features of any quality control or quality assurance programme instituted by the establishment or by a competent authority.

15 List of the current importing country(s)
